

NSUT Assistant: Four Demo Tests

Open <http://localhost:8501>. Start a new conversation for each test. Student records and the demonstration handbook are fictional.

1. Cited policy answer

Select "Ask a general question" · Policy date: 2026-10-06

What is the minimum attendance required for end-semester exams?

Expected: 75%, with citation to NSUT-BTECH-2019, clause 11.2, PDF page 18. Answer type: `retrieved_fact`.

2. Tool-based eligibility answer

Demo student: S1001 · General question OFF · Policy date: 2026-10-06

Am I eligible for the end-semester exam in DBMS?

Expected: eligible. Fictional attendance: 41 of 50 classes = 82.0%, above the 75% requirement. Tool: `check_exam_eligibility`. Answer type: `calculated`; verdict: `true`.

3. Information not found

Select "Ask a general question" · Policy date: 2026-10-06

What is the scholarship for studying in Antarctica?

Expected: information unavailable in authorised sources. Answer type: `not_found`; no invented scholarship or citations.

4. Conflicting policies resolved

Select "Ask a general question" · Policy date: 2026-10-07

What is the minimum attendance required for end-semester exams?

Expected: the level-1 regulation's 75% prevails over the fictional level-4 handbook's 70%. Answer type: `retrieved_fact`. Expand "How this answer was checked" to see the authority decision. Audit: `resolved_by: authority`. The losing handbook is excluded from the answer citations.

Additional unresolved-conflict test: set the date to 2026-11-01 and repeat the attendance question. Fictional notices A and B state 80% and 85% at equal authority/date: expected `conflict_flagged`. Restore the date to 2026-10-06 afterwards.
